

The Future of Digital Policing

tisski
GROWTH THROUGH TECHNOLOGY

1 CORE CHALLENGES

EXTERNAL INFLUENCES

Including legislation, changes in society and changing citizen behaviours and expectations

TECHNOLOGICAL CHALLENGES

Balancing technological advancement and legacy estates

OPERATIONAL CHALLENGES

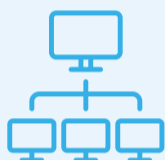

Driving automation and data intelligence to maximise frontline effectiveness

2 OPPORTUNITIES FOR IMPROVEMENTS

OPERATIONS

Modern and intuitive frontline systems

BACK-OFFICE SYSTEMS

Modern and connected line of business systems to support all aspects of police forces

CITIZEN ENGAGEMENT

Omnichannel to engage directly with the public and deliver targeted responses

3 WORKING WITH TISSKI

At Tisski, we're experts in working across the Microsoft product suite, leveraging technologies to provide police forces with systems and solutions that help them to achieve their digital aspirations. Microsoft technology can provide forces with a flexible, intuitive, scalable and integrated toolset to deliver force-wide benefits.

Tisski is a trusted Microsoft Gold Partner with experience and a track record in working with police forces to develop solutions to address common challenges. By harnessing the power of Microsoft Dynamics, the Power Platform and Azure to enable a step-change in service delivery, valuable policing resources will be freed up, awarding forces more time to focus on protecting the communities they serve.

Microsoft Office 365

Microsoft Azure

Microsoft Dynamics 365

POWER PLATFORM

EMPOWER END USERS

Allow users to envision, build and manage the apps that they need

ACCELERATE TIME-TO-VALUE

Speed up delivery with low-code solutions and better business alignment

STANDARDISE TECHNOLOGY PLATFORMS

Maximise internal skills and reduce integration and legacy technology overheads

"Microsoft view Tisski as a strategic partner in policing, delivering critical public safety solutions in the Microsoft ecosystem. Their approach, customer feedback and reputation gives us the confidence to collaborate closely, enabling UK policing to maximise their technology investments with a trusted partner."

Parm Singh, Business Applications Lead for Home Office & UK Policing, Microsoft
